MEMORANDUM FOR : Chief, Development Branch, DFD-DD/P

SUBJECT : Summary - Attached Report on JT11D-20
Engine Controls Problems Status

25X1

1. Recent meetings with Pratt & Whitney and [redacted] revealed the following:

(a) The main fuel control comprises nine major problems of which six would preclude flight operation.

(b) The afterburner fuel control comprises six major problems of which four would preclude flight operation.

(c) The effect of these problems so far has been to seriously impair engine test stand operation.

(d) Concentrated effort is underway for resolution with fair optimism but with time listed as the number one variable.
